ACHIEVEMENTS

- Leetcode Problems Count:150+ Solved

- Skillrack Problems count: 1150+ Solved
with prodigious consistent in Daily Challenge - 100+ Solved

PROJECTS

- **PlayHaven**

JPlayHaven is a MERN-based video streaming platform with user subscriptions, enabling seamless content consumption. It features interactive communication tools, allowing users to create and share personalized playlists with friends who have subscription access. The platform ensures an engaging experience through dynamic media management and real-time interactions.

- **Faculty Profile Management System**

Developed a dynamic web application using JSP and Derby Database to manage faculty profiles. The system allows adding, updating, and deleting details such as journals, conference papers, and educational information. Integrated profile picture management with dynamic features for seamless data handling. Designed for efficient and user-friendly operations.
